1. Profile:

GIS and Disaster Management professional with 2 years of experience working with state government and development partners. Proven ability in solutioning, proposal development, and client engagement for implementation of climate resilience and disaster risk management projects. Combines strong technical expertise in geospatial analytics with strategic thinking to design and pitch scalable, data-driven solutions.

2. Skills

Technical Skills	Software Skills	Soft Skills
Business Development & Technical Solutioning	QGIS, ESRI & Hexagon Products, Google Earth Engine	Stakeholder Engagement & Client Management
Proposal Writing & Methodology Development	R Studio, Python	Strategic thinking and Problem solving
Climate Risk Assessment & Multi-Hazard Analysis	PostgreSQL, Postman	Adaptability and Quick learning
Programming & Automation	MS Office	Communication and Presentation

3. Experience

GIS Analyst

Palladium Consulting India Pvt Ltd Jun 2024 - Present

Client: State Disaster Management Authority, DM R&R Govt. of Maharashtra

- Developed and operationalized Hazard Risk & Vulnerability Assessment (HRVA) framework to enable prioritization of mitigation investments and risk-informed planning at state and district levels.
- Facilitated interagency coordination between DM R&R, IMD, INCOIS, and other stakeholders, leading to improved forecasting integration and alignment of multi-stakeholder DRR initiatives.
- Designed and implemented the Geospatial Decision Support System (GeoDSS) integrating multi-hazard, socio-economic, and real-time datasets for operational decision support.
- Facilitated collaboration between SDMA Maharashtra and IITM Pune, enabling access to Bharat Forecast System (Bharat FS) high-resolution weather forecast outputs and supported their integration into GeoDSS for enhanced forecasting and decision support.
- Developed methodology and implementation framework for Impact-Based Forecasting (IBF) by utilizing SEOC capabilities and integrating geospatial and meteorological datasets.
- Prepared Project Pre-Feasibility Report (PPR) for the National Landslide Risk Mitigation Programme (NLRMP) in coordination with NDMA.
- Supported the development and implementation of mitigation initiatives through geospatial analysis and evidence-based planning.
- Processed and analyzed CMIP6 Global Climate Models (GCMs) and ERA5 reanalysis datasets for climate risk assessments under multiple SSP scenarios.
- Conducted multi-hazard assessments including floods, landslides, cyclones, droughts, rainfall variability, lightning, and heatwave analysis.
- Developed and operationalized Heat Index and climate monitoring frameworks for risk assessment and early warning support.
- Designed and operationalized Aapatti Sahayak, a citizen-centric mobile application for incident reporting and emergency coordination.

Business Development Activities

- Developed approach & methodology sections aligned with client needs, donor priorities for Odisha SDMA, ADB Bamboo Resource Mapping Project etc.
- Identified BD opportunities by mapping disaster risk, state priorities, and funding ecosystems (XVI FC SDRMF/NDRMF, multilateral agencies).\

- Supported primary pitch decks for proactive BD across multiple states by conducting in-depth background research on risk profile of the State, XV FC fund utilization, and Capabilities, and tailoring solutions aligned with client needs and Palladium's capabilities.
- Designed & Developed Scalable geospatial products for business development opportunities

Disaster Tech Intern

Palladium Consulting India Pvt Ltd Jan 2024 - Apr 2024

Client: State Disaster Management Authority, DM R&R Govt. of Maharashtra

- Conducted a comprehensive Lightning Hazard Risk and Vulnerability Assessment across Maharashtra and identified lightning hotspots through advanced spatial analysis.
- Developed geospatial products for the State Heatwave Action Plan, supporting state-level adaptation strategies.

4. Education:

School, college and/or University Attended	Degree/certificate or other specialized education obtained	Period
Pondicherry University	M.Sc., Disaster Management	2022 - 2024
St. Albert's College (Autonomous), Ernakulam	B.Sc., Aquaculture	2019 - 2022

5. Training & Certifications

- Project Management Essential by Cornerstone OnDemand Foundation
- Data Analysis & Action Planning by International Rescue Committee (IRC)
- Business Continuity Planning (BCP) by Asian Disaster Preparedness Centre
- Remote Sensing and GIS in Disaster Risk Reduction by Indian Institute of Remote Sensing, Dehradun
- Landslide Monitoring and Risk Assessment Using NASA Earth System Data organized by NASA's Applied Remote Sensing Training (ARSET) Program
- ArcGIS Online Basics by ESRI
